

# SENIOR DEVOPS

Hexagone is a French and Tunisian start-up of ten people founded in 2018 specialising in the edition of SaaS solutions.

We publish software for the marketing departments of pharmaceutical companies. Associated with large CRM companies on the market as well as with agencies, we aim to be leaders and be present throughout the world.

Our offices are located in Tunisia.

We, at Hexagone, are a no bullshit - family style - hard working - business disrupting - data oriented - cloud native - remote friendly company with worldwide customers ; we need YOU to help us sustain our growth. We provide time and space to grow, free Udemy access and certification plans.

## MISSION

- Bring Cloud expertise and support the company developers in setting up CI/CD for all our products
