

Belonging to Mantu brands' ecosystem, LittleBig Connection, a French Scale-up, is recruiting a Business Technical consultant to join their growing Teams.

Your adventure with the LittleBig team will withhold the following tasks:

- Design and develop automation techniques for data onboarding and configuration in clients' environment (enhancing existing scripts, developing new scripts, running scripts, ).
- Participate both technically and functionally to interfacing projects that communicate LB system with different clients' ERPs and platforms (functional and technical specifications, solutions design, development, tests).
- Contribute to enhancing interfacing tools specification (APIs, Webhooks, etc).
- Ensure Single-Sign On (SSO) establishment for client authentication.
